Updated: 3rd October 2018

Note: LeanMachine has closed as of 30th June 2018

Information on www.leanmachine.net.au/catalog will remain for some time to assist those unsure about benefits and warnings for each product., but orders will not be able to be placed online.

If you are interested in any product still in stock, email sales@leanmachine.com.au

Some products have been imported pre-GST so may be less expensive, email for pricing.

LeanMachine has been able to help many people over many years, but the time and resources taken to provide this service leaves nothing for anything else.

At age 71, although stronger, healthier and fitter than at 21, there are so many projects to do and not enough time to help everyone, but I will still help cancer patients and those desperate to deal with a serious illness.

I thank our loyal customers who have made LeanMachine "too successful" over the years.

We will no longer import items except for existing customers requiring items and willing to email me for help, but Government regulations mean that all imports are now be subject to 10% GST which is yet another reason to close the business, as big business is not affected by these regulations.

Health and Nutrition advice is always free and without obligation, but should be used in conjunction with personal advice from your Doctor, Dietician or Naturopath.
